Personal hygiene measures: Use good personal hygiene practices – wash hands at breaks and when done working with material. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke while working. Do not breathe vapours/aerosols. Avoid contact with skin, eyes and clothes. When choosing personal protective equipment, ask your chemical substance supplier for advice. Personal protective equipment must be CE marked, showing that it complies with applicable standards.

EMERGENCY PROCEDURES

Methods for cleaning up: Absorb product (with inert material), collect it in special container and dispose it to a licensed hazardous-waste disposal contractor. Evaluate the compatibility of the container to be used, by checking section 10. Ventilate the premises. Dispose in accordance with applicable regulations (see Section 13).

Appropriate extinguishing agent: Carbon dioxide. Dry chemical powder. Water spray. Alcohol resistant foam.

Warn others!: See: local Fire safety plan

Provide first aid!
Protect yourself. Do not inhale gas/smoke/vapours/mist.
After an accident, wait for the superior's or the fire-fighter's permission to re-enter the work area.

Inform superiors!

SYMPTOMS OF INTOXICATION/OVEREXPOSURE

Inhalation: May cause allergy or asthma symptoms or breathing difficulties if inhaled. Symptoms include: headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, unconsciousness.

Skin contact: Contact with skin may cause irritation (redness, itching). May cause sensitisation by skin contact (symptoms: itching, redness, rashes).

Eye contact: Contact with eyes can cause irritation (redness, tearing, pain).

Ingestion: May cause nausea/vomiting and diarrhea. May cause abdominal discomfort.

DESCRIPTION OF FIRST AID MEASURES

Inhalation: Remove patient to fresh air - move out of dangerous area. If victim is not breathing, give artificial respiration. Seek medical help immediately.

Skin contact: Take off all contaminated clothing. Areas of the body that have come into contact with the product must be rinsed with water. Immediately obtain professional medical help! Wash contaminated clothes and shoes before reuse.

Eye contact: Remove contact lenses, if present and easy to do. Immediately flush eyes with running water, keeping eyelids apart. If irritation does not stop, seek professional medical treatment! Show the physician the safety data sheet or label.

Ingestion: Immediately consult a doctor. Do not induce vomiting! Do not administer anything not explicitly authorised by a doctor.
